917 Harper Dr  
Verona, WI 53593

Dear Dr. Rodis Paparodis:

Thank you for your membership with ISCD! As a member, you join over 3,000 clinicians, technologists, researchers, and other healthcare professionals committed to high quality bone densitometry. At no other time in our history has bone densitometry and osteoporosis been more at the forefront of emerging healthcare concerns. The many new developments in this field make it imperative for all of us to stay up-to-date. The ISCD offers many opportunities for you to learn more about bone densitometry and keep in touch with others who have similar interests.

Benefits of ISCD membership include:

- Subscription to the **Journal of Clinical Densitometry** online format (optional for technologist, associate and retired categories)
- Listing in the Members Online membership directory
- Reduced fees for ISCD Education Courses, Certification, Annual Meeting, and products
- Free Online CME & CE Opportunities
- E-mail notification of breaking news regarding bone densitometry
- The Public Policy team has developed a state-by-state listing of Local Coverage Determinations (LCD's) and Policy Articles. LCDs and Policy Articles contain critical information regarding coverage issues that may affect your ability to be reimbursed. The information includes indications and limitations of coverage and/or medical necessity, ICD-9 Codes that support medical necessity, documentation requirements, and utilization or frequency guidelines.

Please take a few minutes to view the ISCD Web site for the latest information on leadership, upcoming events, calculating least significant change for serial bone density testing, reimbursement for bone densitometry, and more. This is an excellent opportunity for you to demonstrate your support for excellence in densitometry.

Sincerely,

John T. Schousboe, M.D., Ph.D., CCD  
ISCD President
